

It's a BIG Deal.

Here's Why:

You get:

- 1 RELIABLE SIGNS:** By taking advantage of the industry's best warranty, you're getting a product that is up and running more often - on the job site, making you money, keeping workers safe, guiding traffic, making your work easier and more efficient.
- 2 FEWER REPAIRS:** Here's another way to look at it: Think how much you can save by NOT sending a repair crew out to the sign.
- 3 MORE GOOD NEWS:** The LED lamps in our Arrow Boards are actually under warranty for ten years. Twice as long as our competitors' warranties.

We're proud to offer you a reliable, sturdy, well-made product that lasts and lasts, backed by the best warranty in the industry.

It's a good deal for us, too. Here's how:

We get:

- 1 REPEAT CUSTOMERS:** We're confident about our products. So much so, we guarantee every product for a five full years. Customers like that. They return to buy more.
- 2 GOOD QUALITY = FEWER CLAIMS:** We did the math. In 2017, warranty and service costs were 1/2 of 1% of revenue. That's an infinitesimally small rate.
- 3 PRIDE IN OUR CRAFTSMANSHIP:** The time and effort we put into improving our products - the ISO standards we meet continuously, the weekly engineering meetings to fine-tune each product - have created an atmosphere where superior quality is expected, and delivered.
